Using the Carby chat to upload forms

Heads up!

Here are a few important bits of information before you get started

- **Have your forms ready to upload:** We encourage you to have all your necessary forms filled out before starting the chat process. This will make this process easy and seamless. If you do need to restart, we'll show you how in the following slides.
- **Tuberculosis screening:** We will be conducting a Tuberculosis risk assessment in within the flow. If you're determined to need a Tuberculosis screening, you'll be required to receive Tuberculosis testing and a provider will need to fill out the Tuberculosis Health Assessment Form. You can restart this flow and upload the Tuberculosis Health Assessment Form along with your other documents.
- **Religious or Medical Exemptions:** A single religious exemption form will cover all vaccines while medical exemption requests will need to be made for each vaccine from which you wish to be exempt.

First, indicate you are a new student...

...then, let us know if you have access to the necessary forms. If you don't, we'll send you a link to the forms!
