Primary Goal of This Event

Please choose one below that best describes your goal for this event:

- Advance Practice Change/Capacity Building:** Educate or train attendees in existing knowledge or skills needed to close gaps that contribute to a health justice problem.
 - *Example:* Event to train health care and social service providers in identifying and responding to health-harming legal needs of immigrant patients.
- Advance Research:** Advance new knowledge or conceptual frameworks to address gaps in what may be known about a health justice problem.
 - *Example:* Workshop seeking to understand why guardianship is disproportionately sought for low-income older patients by hospitals and map a research agenda for understanding individual, system and policy-level drivers.
- Change Law & Policy:** Develop, analyze, or advance specific legal and policy proposals to address a health justice problem at any level (institutional, local/county, state, federal)
 - *Example:* Conference to assess strategies to address homelessness using Medicaid waivers

Initial List of Speakers

Provide a list of speakers you intend to invite, or that are illustrative of the type of speakers you'd like to invite. Your speaker list should reflect a multidisciplinary and multistakeholder approach to the extent possible. For instance, a panel consisting exclusively of UCSF faculty or exclusively of UC law students will not be competitive. Events that do not consider or include community perspectives and voices will also not be competitive. If you do not have connections to other professions, disciplines, community groups, etc., we are happy to facilitate such connections.
